

Try for Health

223 South Peoria St.,
CHICAGO, ILL., Oct. 7, 1902.
Eight months ago I was so ill that I was compelled to lie or sit down nearly all the time. My stomach was so weak and upset that I could keep nothing on it and I vomited frequently. I could not urinate without great pain and I coughed so much that my throat and lungs were raw and sore. The doctors pronounced it Bright's disease and others said it was consumption. It mattered little to me what they called it and I had no desire to live. A sister visited me from St. Louis and asked me if I had ever tried Wine of Cardui. I told her I had not and she bought a bottle. I believe that it saved my life. I believe many women could save much suffering if they but knew of its value.

Surgis Dunbar

Don't you want freedom from pain? Take Wine of Cardui and make one supreme effort to be well. You do not need to be a weak, helpless sufferer. You can have a woman's health and do a woman's work in life. Why not secure a bottle of Wine of Cardui from your druggist today?

WINE OF CARDUI

The Missouri Teachers College.

Probably the most important event of the year 1904 in Missouri's educational development is the reorganization of the department of education of the University of Missouri into a teachers college with a four years' course of study leading to the degree of bachelor of science (B. S.) in education.

The college also confers teachers certificates authorizing the holders to teach for life or for two years within the state of Missouri, the length of time for which the certificate is awarded depending upon the amount of training which the student has received in academic and professional lines. These certificates indicate whether the holder is fitted to teach in the elementary schools or in the high schools, and, if in the latter, what subject or subjects in particular he is qualified to teach.

The distinctive feature of the work in the teachers college is the study of the history of education, educational psychology, theory and practice of teaching, and school administration, combined with actual practice in teaching under guidance and observation of the teaching of experts, in all grades of school work. No one will be awarded a life certificate until he has made a careful study of educational problems and has demonstrated by actual practice, his ability to teach; but a certificate good for two years may be awarded to persons of less professional training and experience upon the completion of certain minimum courses of study. By further study in the teachers college, either in the regular or summer session, and successful experience in teaching the life certificate may in due time be awarded.

These certificates are awarded not only to graduates of the teachers college but to A. B. graduates of this university and others of similar standing who have pursued in Missouri Teachers College the courses of professional study and practice required of its graduates. In general the equivalent of about one year of professional training is required of graduates of colleges of the Missouri College Union. This requirement may be fulfilled, either in whole or in part, by attendance at the summer sessions when the work in educational theory and practice is strongly represented. Graduates of colleges and normal schools who desire to work for the degree of bachelor of science in education are given such advanced standing as their previous course of training entitled them to.

In order to carry out the purposes for which the teachers college was organized, the board of curators of the university has established a practice school, and employed three professors of education, each representing a special phase of the work. Dr. A. Ross Hill, for many years professor of philosophy in the University of Nebraska, was made dean of the college early in the year. He brings to his new work a wide experience. His teaching career began in a country school and continued successively through high school, normal and university. President Geo. B. MacLean of the University of Iowa, characterizes him as the "best available man in America for dean of a

teachers college." Dr. Frank P. Graves, five years president of the University of Washington, and Dr. J. L. Merriam, of the Columbia Teachers college, were later called to the faculty. Besides, there has also been appointed a faculty for the instruction of teachers in the best methods of teaching agriculture and horticulture, botany, German, manual training, music and other branches of school instruction. Thus the professional training offered is concrete and practical, and adapted to the needs of teachers in all grades.

Situated as it is in the midst of all the libraries and laboratories of the State University, the Missouri Teachers College is able to offer better facilities for the training of teachers than any such institution on a separate foundation could. All the resources of the College of Liberal Arts and of the College of Agriculture are at the service of the students. The instructors of the teachers college arrange their courses with a view to the needs of teachers, and teachers' courses in other departments can be provided when there is a demand for them.

Such an arrangement is the modern ideal of a teachers college. Only a few years ago the Columbia Teachers College that has so vastly influenced American educational thought was founded upon this plan. It was the first of its kind in America. The Missouri Teachers College is the second. It is not too much to expect that the influence of the latter will be the greatest of any institution for the training of teachers west of New York City, where the Columbia College is located. Its establishment is the greatest event of this year and probably of this decade in Missouri's educational development.

BASEBALL PLAYERS AND FOOT RACERS.

Louis J. Kruger, ex-champion long distance foot racer of Germany and Holland writes, Oct. 27, 1901: During my training of eight weeks' foot races at Salt Lake City, in April last, I used Ballard's Snow Liniment to my greatest satisfaction. Therefore, I highly recommend Snow Liniment to all who are troubled with sprains, bruises or rheumatism." 25c, 50c, \$1 a bottle. Sold by Crenshaw & Young.

Cause of the Apple Sting.

A bulletin just issued by the University of Missouri explains the cause of the so-called "sting" of the apple that has been puzzling farmers and fruit growers since 1900, the year of its first appearance. A little bug about the size of an ordinary flea, known to horticulturists as *Plum Curculio*, has been puncturing the skin of the fruit for the purpose of eating the pulp and depositing its eggs. Dr. J. M. Steedman, author of the bulletin, recommends spraying the trees at intervals of ten days, twice before the blossoms open and four times before the blossoms fall, allowing hogs to eat the fallen fruit which contains large numbers of the insect; and cultivating the soil under the trees at least three times between the fifteenth of July and the fifteenth of August.

INDIGESTION.

With its champions, heart burn, flatulence, torpidity of the liver, constipation, palpitation of the heart, poor blood, headache and other nervous symptoms, sallow skin, foul tongue, offensive breath and a legion of other ailments, is at once the most widespread and destructive malady among the American people. The Herbine treatment will cure all these troubles. 50c bottle. Sold by Crenshaw & Young.

Connecticut Likes Parker.

Judge Robert E. DeForest, chairman of the recent Connecticut democratic state convention said: Judge Parker is the strongest candidate who could have been selected. I especially admire him for his refusal to abandon his appropriate and dignified silence in advance of the action of the convention. The office has sought the man, not the man the office. It is refreshing contrast to the conduct of the present executive. If there is any sense of decency left in the American mind this difference alone in the character of the two candidates will go far to secure Judge Parker's election.

Born, at Mayview, Thursday, July 7, to the wife of L. O. Rechterman, a girl.

CONTINUE

Those who are gaining flesh and strength by regular treatment with
Scott's Emulsion
should continue the treatment in hot weather; smaller doses and a little cool milk with it will do away with any objection which is attached to fatty products during the heated season.

50c and \$1.00; all druggists.

Peculiar To Itself

In what it is and what it does—maintaining the best blood-purifying, alterative and tonic substances and affecting the most radical and permanent cures of all humors on all eruptions, relieving weak, tired, languid feelings, and building up the whole system—is true only of
Hood's Sarsaparilla

No other medicine acts like it; no other medicine has done so much real, substantial good no other medicine has restored health and strength at so little cost.

"I was troubled with scrofula and am near losing my eyesight. For four months I could not see to do anything. After taking two bottles of Hood's Sarsaparilla I could see to walk, and when I had taken eight bottles I could see as well as ever." SCARLETT A. HARRISON, Withers, N. C.

Hood's Sarsaparilla promise to cure and keeps the promise.

Bacteria.

Now comes the celebrated Dr. Nicholls who has demonstrated according to the New York Medical Record, that it is as impossible to avoid bacteria as it is to escape poverty or a presidential election, and that the normal healthy man, is full of all kinds of bacteria, only they don't hurt him until he's ill.

Dr. Nicholls says: "In healthy animals, bacteria are constantly passing in from the various surfaces of the body, to become lodged in certain tissues, notably the lymph glands."

The pneumonia and tuberculosis bacilli have been found scattered through healthy organisms. The Nicholls experiments show the falsity of the fundamental popular belief regarding infection, namely that healthy organs do not shelter bacteria. Even the liver and kidneys contain bacteria. Infection is a normal condition. The infection is harmful when the individual infected is below par, as to his physical condition.

The practical factor in immunity is the individual constitution, and not the presence or absence of bacteria.—Post-Dispatch.

WANTED—Faithful person to travel for well established house in a few counties, calling on retail merchants and agents. Local territory. Salary, \$20 per week with expenses additional, all payable in cash each week. Money for expenses advanced. Position permanent. Business successful and rushing. READ THIS.

St. Louis, Mo., Nov. 2.
Dr. E. W. Hall—Dear Sir: I have been troubled with rheumatism for years and one bottle of the Texas Wonder, Hall's Great Discovery, has completely cured me, and I cheerfully recommend it to the public.
Yours truly,
A. J. CROMMIE,
4020 Cottage Ave.

A TEXAS WONDER

One small bottle of the Texas Wonder, Hall's Great Discovery, cures all kidney and bladder troubles, removes gravel, cures diabetes, seminal emissions, weak and lame backs, rheumatism and all irregularities of the kidneys and bladder in both men and women; regulates bladder troubles in children. If not sold by your druggist, it will be sent by mail on receipt of \$1. One small bottle is two months' treatment and seldom fails to perfect a cure. Dr. E. W. Hall, sole manufacturer. P. O. Box 629, St. Louis, Mo. Send for testimonials. Sold by all druggists.

Favorite Home Paper.

Established for nearly a century and read regularly by more than 500,000 persons in the West and Southwest, the Twice-a-Week Republic of St. Louis can justly lay claim to that enviable distinction, "Favorite Home Paper."

It is great because it has always aimed to inform, instruct and entertain its readers on all matters of public and home interests. In 1904 it will be especially interesting and valuable. Here are some reasons why you should subscribe for it:

This is campaign year, and you will want to be informed of the movements of party leaders, reports of the great National and State conventions, the progress of the campaign, reports of elections, etc.

You will want to know all about the World's Fair, to be held in St. Louis from April 30 to December 1, 1904.

You will be interested in and kept well informed by the Farm Visitor, a regular supplement of the paper, prepared especially for the farmer and his family.

You will want to know what the world is doing in every field of activity and through the unsurpassed news and special service of the Twice-a-Week Republic you will not be disappointed.

In short sketches, choice bits of fiction, articles of interest to women, children and the home, fashion hints and helpful household suggestions the Twice-a-Week Republic easily leads among the weeklies of the great West.

If you want the Twice-a-Week Republic sent to your address, order it at once direct from the office at St. Louis, Mo., or through your newsdealer. It costs only \$1 a year. 2-131f

THE HOME OF VINOL

To Old People

If the people of this town only knew the good Vinol does old people, we could not get enough to supply the demand. With old age comes feebleness and loss of power, lack of strength and vigor. To prove our belief that Vinol is the greatest strengthener, body builder, and invigorator for old folks, we say to all—try it, and if you are not satisfied we will return your money.

PROTECT YOUR HOUSES

From burglars by using the Hart Burglar Proof Automatic Anti-Rattler Sash Lock. We warrant every lock to do as represented below or money refunded. 1st, because the window cannot fall and break the glass. 2d, because it will stop the window at any desired height to admit air from top or bottom and cannot be raised by any one from the outside, making it burglar proof. 3d, it prevents the window from rattling, which is worth the price of the lock and there is no other lock on the market that will do what we claim for it. Call on M. T. Slusher, Agent for Lafayette county, or at Frank Kruehn's Shoe Store and see it.
